

Maple Install Guide

Maple 2020 is available inexpensively for UoG students through the CCS Software Distribution website. It requires a one-time purchase of \$59.83 in order to download and install.

- 1) Log-In to the CCS Software Distribution site (<https://e5.onthehub.com>) – Once you have signed in, search for Maple and purchase it.

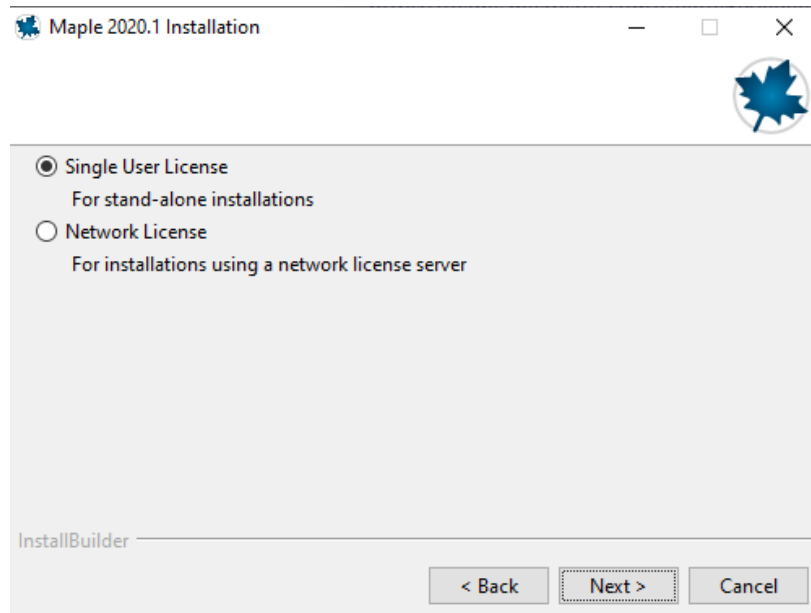

- 2) Download the installer for Maple by following the instructions from the CCS Software Distribution site. This video provides a walkthrough of performing the download: <https://www.youtube.com/watch?v=GCSzY15uYm0>
- 3) Once the installer had been downloaded, double click to run it. Click next and accept the license agreement to proceed.

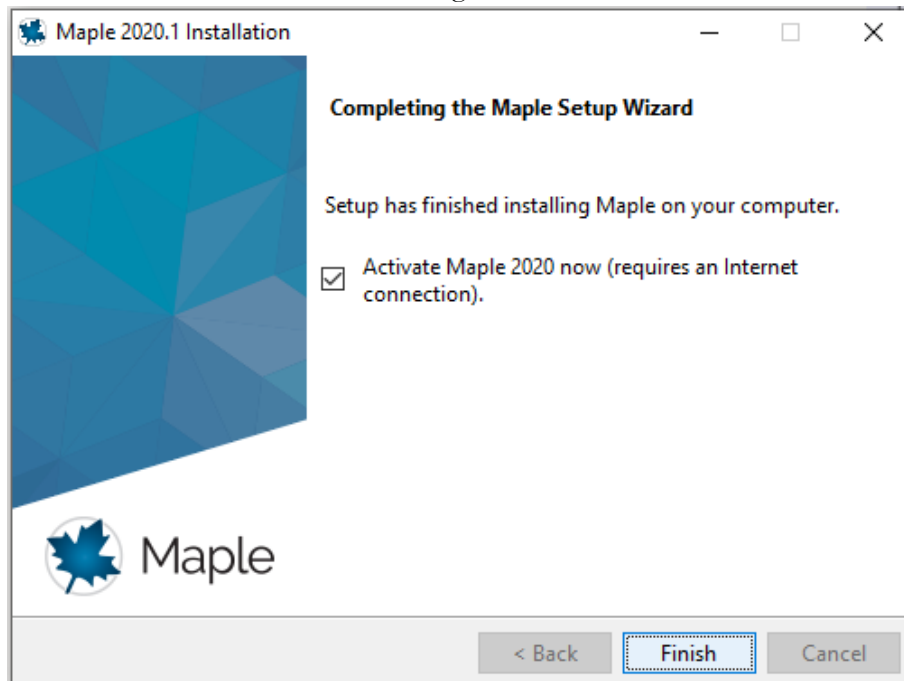

Select the installation directory – the default is almost always acceptable. Hit Next.

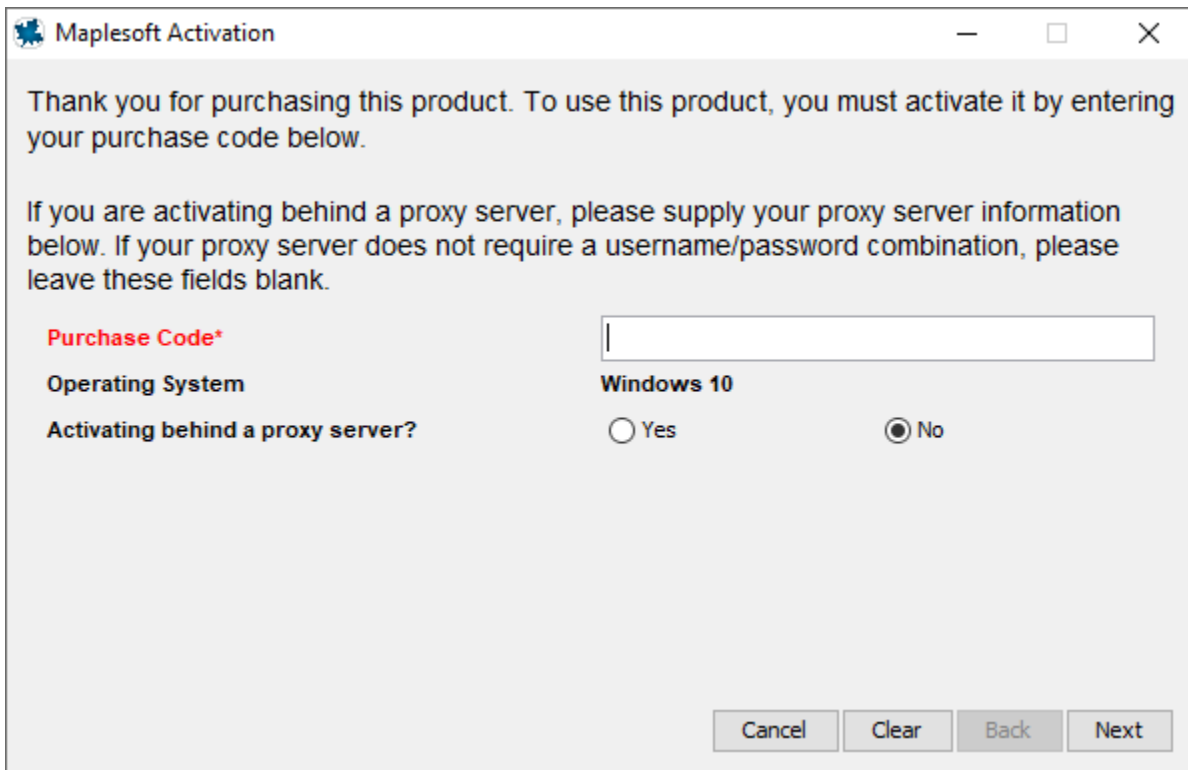

- 4) You will be asked to choose between two license types. Choose **Single-User License**. Click Next.

- 5) The next screen will check for updates – allow it to proceed and then click Next again to begin the installation.
- 6) After the installation is complete, you will be prompted to activate Maple. Ensure the box is checked as the screenshot below before hitting Finish.

- 7) The Activation window will open and you'll be prompted to enter the purchase code you will have received by email to your @uoguelph.ca email address following the purchase of Maple.

The image shows a screenshot of the 'Maplesoft Activation' window. The window title is 'Maplesoft Activation'. The main text reads: 'Thank you for purchasing this product. To use this product, you must activate it by entering your purchase code below.' Below this, it says: 'If you are activating behind a proxy server, please supply your proxy server information below. If your proxy server does not require a username/password combination, please leave these fields blank.' There are three input fields: 'Purchase Code*' (empty), 'Operating System' (set to 'Windows 10'), and 'Activating behind a proxy server?' (radio buttons for 'Yes' and 'No', with 'No' selected). At the bottom right, there are four buttons: 'Cancel', 'Clear', 'Back', and 'Next'.

You will not need to activate behind a proxy server, so ensure it is set to **No**. Click Next once you have entered your purchase code.

Following the activation, Maple 2020 will be ready for use.
